Application for Planning Permit

The Land

Please refer to the attached "Schedule of Land Titles" for a description of the land and the attached Figure 4.1.

The Proposal

Use and development of land for a Wind Energy Facility – "Stockyard Hill Wind Farm" – comprising 242 wind turbines and associated infrastructure including access tracks, cabling, permanent anemometers (monitoring masts), internal 132kV powerlines, substations, temporary concrete batching plants, maintenance facility, car parking and bicycle facilities; removal of native vegetation; alteration to roads located within a Road Zone Category 1; and Business Identification signs, all to the satisfaction of the Responsible Authority, on the land listed in the attached Schedule of Land Titles.

Existing Conditions

As described in the attached Planning Report (in four volumes).

Title Information

The proposal does NOT breach in any way, an encumbrance on title such as a restrictive covenant, Section 173 agreement or other obligation such as an easement or building envelope.
