Mr Ross Richards  
Engineer  
Wind Power Pty Ltd  
Level 3  
765 Glenferrie Road  
**HAWTHORN VIC 3122**

Dear Mr Richards

### **STOCKYARD HILL WIND FARM**

Thank you for your query of 25 September 2008 regarding the proposed installation of a CFA radio facility within the proposed Stockyard Hill wind farm area on a site in Stockyard Hill.

We have completed the assessment of the impact on our radio services, based on the coordinates of the wind turbine locations supplied by Wind Power Pty Ltd. The results of the assessment indicate that

1. existing CFA point-to-point services will not be affected if the wind turbines of Stockyard Hill Wind Farm are installed at the supplied locations;
2. existing CFA mobile radio services are adequate to provide its services within the supplied wind farm boundary; and
3. future CFA radio service installations are not likely to be affected by the proposed Stockyard Hill Wind Farm.

If you have any queries, please do not hesitate to contact me.

Yours sincerely

**Rod Johnston**  
**Acting Manager, Communications**
